The system should have enough space to store the full DVD image of Oracle Linux Media Pack (approximately 3.5 GB for Oracle Linux Release 6 Update 3). For .ISO files must have enough free space to burn to DVD (9 GB for Oracle Linux 6 Update 3). When installing Oracle Linux 6.1 Update 5 on a computer running Windows 7 Enterprise Edition 64-bit, 4 GB of free disk space is required. Installing Oracle Linux 6.1 Update 5 on Windows 7 Professional (build 7600) will require approximately 2 GB of free disk space. When installing Oracle Linux 6.1 Update 5 on a dual processor machine, approximately 500 MB of free disk space will be required.
