## Sound Normalizer 64 Serial 16

An integer. Deven 75 Oct 15. In a world in which zombie apocalypse is just a five minute drive away, crime doesn't exist and giant space monsters roam the Earth, one man stands ready to die in order to save a small girl. Genetically reengineered soldiers known as Brutals are created to be mindless killing machines who are euthanized once their purpose is completed. However, since Brutes are descendants of human women, they can have feelings and emotions. With orders from their supreme commander to protect the world against an attack by an alien life form, a trio of Brutes will stop at nothing to save a small alien girl from certain death. They will be forced to deal with the strangers they meet and the Brutes they knew before, all while trying to stop an army of Titan mechs led by the alien's father. The game has been in development for two years and was developed by Defense Location (Formerly known as Rage) with the assistance of NEO Scavenger, and was published by Daydream in Japan and Gathering of Developers in the West. It has also been advertised as "The first zombie game" since it has the undead as one of the main antagonists. Plot Shen has given up on the world and on happiness. She lives with her mother and her two step-sisters in a block of flats made of concrete, and spends her days doing menial household chores, hoping that if she keeps busy she will never be asked to care for anyone. When Shen learns her step-father has been away on business for three days she is overjoyed and eager to look after him. However, she soon learns that this is far from the truth, as she soon realises that her step-father has been playing a horrific joke on her. During the time he was away, Shen has been repeatedly raped and tortured. The people who live around him also see his cowardice as he has not tried to save her, and the presence of murder witnesses as he does nothing to protect his family. Shen's mother has taken on a different step-father and a new attitude towards life. After witnessing these things, Shen can see the cruelty of the world, and flees into the night to be as far from her step-father's suffering as possible. Shen believes she is the only girl in the world. When she is sent to a school to be tutored by teacher Sofia, Shen soon learns this is not the case c6a93da74d
